

FUNDING THE APCs ON RESEARCH RELATED TO THE SOCIETAL IMPACT OF CORONAVIRUS

Emerald Open Research is an open access platform. Emerald launched a publishing fund of £20,000 to cover the APCs for research related to the outbreak and similar healthcare emergencies.

They are calling all social scientists working in the following interdisciplinary research areas:

Workplace management and planning / HR practices and employment procedures / Government policies and procedures / New technologies and innovations / Health care systems, services and funding / Mental health and wellbeing implications / Education and learning accessibility / Responsible leadership and management / Hospitality and tourism / Economic implications and planning procedures / Supply chain management.
